- 2 ea. Fence Signage 3'x6'
- TWO Dedicated Range Safety Officers

Oak Tree Gun Club is excited to announce that we are hosting the 2025 Summer Blast, May 17-18, 2025.

This 2 Day Event is the ONLY "HANDS ON" shooting experience in SOCal, where clients can demo firearms and accessories from their favorite manufacturers, and purchase these products in our retail stores facility wide. This event is attended by thousands of residents of Los Angeles and the surrounding communities. We do not charge admission, and parking is FREE.

We want to make this event easy and safe for our reps and customers. All customers enter and pass through a check-point where they complete all liability forms and acknowledge the Event Rules. Ammunition Card Booths are set up where ammo cards are sold in different denominations, and customers can visit each booth to try firearms. While at the booth, the value of the ammo consumed is deducted from the card. We provide, inventory and issue ammunition to the booths and have at least one range safety staff member or instructor at each booth to assist the reps with firearm handling and safety, so our reps can spend time talking to the clients about products they sell. We also have ample space for vendors to display products in booths adjacent to the shooting ranges.

The majority of our Manufacturer's Reps attend the Summer Blast every year, however we do understand that not all companies have the resources to send reps to these types of events. If this is the case, and you would like to have your products represented at the Summer Blast, we can have our staff work at your booth. Our staff can coordinate with you regarding products we have on-hand for demonstration, (we already have hundreds of popular CA Compliant firearm models in our rental inventory at the ranges), what we will need/require to facilitate the booth and rentals, and we will staff the booth with our range safety staff and instructors. Your company can provide additional demo products, product information, literature, swag, additional signage - whatever makes this event more exciting for our attendees.

We encourage all our sponsors to bring any signage they have available, however we will be assisting with the production of signage for our RANGE EVENT SPONSORS this year (which is included in the pricing). We request that you provide all artwork to our marketing department NO LATER THAN MARCH 15, 2025. Please contact our Marketing Director, Frances Magsayo, Marketing@oaktreegunclub.com

For Event Sponsors requiring firearms, products or promotional materials to be mailed to our facility in advance (for booths or inventory), please contact David Van Elgort, warehouse@oaktreegunclub.com. Please make sure to include the type(s) of firearms and caliber or gauge you are bringing to ensure we have ammunition available for the booth.

We thank you for your consideration of sponsorship of the 2025 Summer Blast at Oak Tree Gun Club.
